System Administrator at Delta Force

venkythesupersaiyan@gmail.com

---

## Summary

A 2nd year Computer Science Undergraduate student at NIT Trichy and System Administrator at Delta Force. Part of WebOps team of Festember and Pragyan With Immense Passion for Coding , I develop small projects solving local needs. I also love CTF's and do small level Hacks. I also contribute to the open source community in my free time. Coding aside , I am an avid gamer and a creative writer.

---

## Experience

### Software Developer at Delta Force

July 2015 - Present (7 months)

The Delta Force is an active group of designers and programmers who are responsible for the maintenance of the college website and the development and administration of most of the content on the college intranet.

### Software Developer Intern at Dipper

November 2015 - December 2015 (2 months)

Dipper is an online platform that connects load providers (GTA) with load seekers (Truck Owners)- without commissions! In a country where logistics cost are 2-3 times the international benchmark, we leverage technology and pass the benefits and transparency onto you (the load owner/movers) so that you can, 'Drive your own freight!' Know more at [www.UseDipper.com](http://www.UseDipper.com)

---

## 1 person has recommended Venkkatesh

"Venkkatesh is a very skilled programmer. While working with us at Dipper, he was able to come up with ingenious solutions for the challenges thrown at him. His output and quality of work was high despite facing new problems. The one thing that really appealed to me was his ability to take up responsibility and ownership and work independently to completion. He proved to be a good team-player and I would like to work with him again in the future. Wish him the best! "

— **Suryansh Jalan**, *Co Founder, Dipper*, managed Venkkatesh indirectly at Dipper
